1 TASK SEPARATION

To be able to understand the app thoroughly, I find important that both contributors work on all the topics at hand, some of which are:

- Persistence through DAO.
- Swing (Creation of windows).
- Component creation.

1.1 Enrique Kessler Martínez

- Improvement of Login window.
- Creation of searching songs window.
- Creation of Recent songs window.
- Initial persistence configuration.
- Controller configuration.
- Repo Creation for Songs (SongsRepo)
- DAO Adapter for Song.
- Tests for Song functionality.
- Component creation.

1.2 Javier Barceló Pérez

- Improvement of Register window.
- Creation of Main window.
- Creation of NewList window.

- Creation of MyLists window.
- Creation of Most reproduced songs window.
- Repo creation for Users (UsersRepo): En español lo llama el profesor Catálogo.
- DAO Adapter for User.
- Tests for User functionality.
